CCV Mobile Premium

Premium mobility for highest demands

The CCV Mobile Premium is one of the most compact and functional mobile terminals and offers highest quality design. The instant switch between 3G/4G and WiFi (via softkey) and the radiantly clear touchscreen make the CCV Mobile Premium the ideal companion for every mobile retailer or gastronome, who expects the best service for his customers, employees and himself.

The contactless reader and SignPad, which is used for archiving digital signatures, are already integrated. The CCV Mobile Premium is approved to the latest standards without privacy shield, including also PCI PTS 4.x.

CCV develops and markets electronic payment systems and manages terminals in Germany, Benelux and Switzerland. With our comprehensive technical know-how gained from over 20 years spent working in the field of payment terminal development, we are the ideal partners for branch retail as well as for owner managed companies, who we support with individual solutions on the basis of our market and customer-proximate philosophy.

Payment systems that are both innovative and reliable form the centrepiece of our organisation: for countertop and mobile retail, for e- and m-commerce, and for the area of self-service. We enable secure and fast payments at every point-of-interaction, and work together with our partners continuously on innovations, which we develop with a holistic understanding for the requirements of the world of retail. Whether it is new impetus for your business life, straightforward systems with significant added value or the long term loyalty of your satisfied customers - all of this is enabled by our Omni-channel solutions for retail, commerce and service providers.

CCV Germany is part of the international CCV Group, which is based in Arnhem (NL).

The CCV centres of expertise CCV is your strong partner and service provider in all the areas of electronic transactions processing. As CCV centres of expertise, the CCV locations in Au in der Hallertau (head office, south), Berlin (east), Hamburg (north) and Moers (west) can offer you efficient support together with our long standing expert knowledge for your projects in the area of cashless payments throughout Germany.
