CCV Edge IM15

Unattended self-service payment terminal for contactless payments

✓

PIN on glass | prevents consumers from 'can't pay situations' as it enables contactless payments with PIN on demand

✓

Compact | the all-capabilities terminal design fits even into small machines and into standard cut-outs

✓

Adaptable | terminal can be installed flexibly, in landscape or portrait format

✓

Connectivity | it connects anywhere with its multiple built-in interfaces and optional 4G interface for remote locations
